Classification: TOP RESTRICTED  
Distribution: AUTHORIZED TDI PERSONNEL ONLY  
Origin: TDI Biological Research Division

## SUBJECT IDENTIFICATION

```
Name: Samuel Wright
Age: 25
Sex: Male
Nationality: American
Status: NEUTRALIZED
Acquisition Method: Field Retrieval
```

## INCIDENT SUMMARY

On the morning of July 31, 1979, Subject Samuel Wright was successfully neutralized following [REDACTED] [REDACTED] [REDACTED] demonic viral agent designated DV-[REDACTED].

The subject exhibited early-stage symptoms consistent with initial infection parameters observed in prior non-documented cases.

Containment procedures were executed without public exposure.

# TRANSFORMATION DOCUMENTATION

Following neutralization, Subject Wright was transferred to a secured TDI research facility for controlled observation.

A full audiovisual recording was authorized and conducted to document:

- Viral progression
- Physiological restructuring
- Behavioral degradation
- Emergence of demonic characteristics

The footage demonstrates a complete transformation sequence, consistent with entities internally classified as "Demons."

This recording has been approved for internal training, research analysis, and future containment protocol development.

#### BIOLOGICAL OBSERVATIONS

Recorded changes include:

- Abnormal cellular regeneration
- Skeletal distortion
- Loss of verbal cognitive function
- Aggressive response to auditory stimuli
- Skin turns red
- Anatomical distortion

Transformation time was significantly reduced compared to prior undocumented incidents.

Cause for accelerated progression remains under investigation.

#### DISPOSITION

Following completion of documentation, Subject Wright was declared non-recoverable.

All biological remains were transferred to TDI containment for further study.

Public records concerning Samuel Wright have been amended to reflect disappearance under unknown circumstances.

#### CONTAINMENT NOTICE

All materials related to this incident, including the transformation footage, are classified.

Unauthorized dissemination of this documentation constitutes a direct violation of TDI security protocol.
